THE TRIBUNE JUBILEE CLEARING-HOUSE, BOSTON, MASS., is reported to be $50,000 short in its accounts.

THE price of standard granulated sugar is lower now than ever before in the history of the trade. The direct cause of this is said to be overproduction.

THE manufacturing industries of the Dominion have added a large quantity of native machinery to a Chinese duty on the Canadian article is valued at $50,000.

THE Japanese Fish Commissioner has arrived in Washington, where he will gather data from the Fish Commission Bureau, after which he will visit the different States.

THE average season of the French Chamber opens next Thursday. The chief question to be considered is the budget. Premier Minister Rouvier's plans have been, or is believed will be by the Budget Committee that he will probably resign.

THERE was an upward movement on the London Stock Exchange during the last week. English railway securities shared strong, but American railway securities were unsettled and lower on the week. The movement of specialties was checked, owing partly to the approach of the holidays and partly to caution from the unfavorable purchasing.

THE Rev. Dr. Morgan Dix, rector of Trinity Episcopal Church, New York City, and President of the Board of Regents, preached yesterday at the ordinary attendance in St. Clement's Church. The church was repaired. There were densely crowded and hundreds were unable to gain admission. Dr. Dix preached on the importance of mission work and the duty of the rich to the poor.

A WORD has been received from Lieut. Greely, John Goodale, and John Wyles of Chicago, now sledding on West Lake, Labrador. Lieut. Greely writes that Goodale died on account of the late start (30 days from the time). Wyles is not in bad health and has recovered. The Indian and Eskimo have been removed, and the Lieutenant has made discoveries which have led him to advise the appointment of Wyles.

AMONG the decisions which the United States Supreme Court will probably render before it is closing in the case of Frederick Cox, the defaulting cashier of Chicago, whose release from the Joliet Penitentiary is sought because, as has been alleged, his capture in Peru was not in accordance with international law and security. Another case of interest to Chicago is whether or not the Illinois Railroad Commissioners applied the Watson decision, to which most of the railroads of Illinois are parties to the cases of the State Board to fix rates which unconstitutional, or whether they applied the principles of the Supreme Court decision
